IPC SUMMARY

ONE OF THE LARGEST MANUFACTURERS OF PROFESSIONAL CLEANING EQUIPMENT

IPC knows every detail of cleaning equipment—we are committed to providing our customers with quality cleaning products and support of our full line of cleaning equipment.

INNOVATIONS

INNOVATION THAT DELIVERS PRODUCTIVITY

IPC's large R&D team works as a group of experts in cleaning innovation to deliver tangible productivity benefits at a fast pace.

KEY VALUES

CLIENT-CENTRIC

IPC's tremendous depth of expertise and know-how are focused on delivering specific solutions and addressing emerging cleaning needs for our customers.

KEY VALUES

COMMITTED TO SUSTAINABILITY

IPC's sustainable technologies contribute every year to always higher standards of energy savings, water savings, and recycling of materials.

NETWORK

GLOBAL DISTRIBUTION

IPC has a global commercial network covering over 120 countries, with wide and complete service in professional cleaning equipment markets.

PRODUCTS

COMPLETE PORTFOLIO

IPC provides a complete range of professional equipment including: automatic scrubbers, sweepers, professional vacuum cleaners, window cleaning and specialized cleaning tools.

IPC

IPC is a leading manufacturer of cleaning equipment and tools throughout the world. As a whole, IPC includes 15 specialized segments focused on providing superior cleaning products. Each IPC segment is relatively small in scale, allowing faster, more innovative development of products, but with the resources of a larger company to achieve fast turnaround times and serve a global audience.

HIGH QUALITY MAINTENANCE

EFFICIENT COMPONENTS CONTROL - HIGH QUALITY ASSEMBLY AND PRODUCTION STANDARDS

EFFICIENT SERVICE

SHARED MACHINE PLATFORMS - EFFECTIVE AND USER FRIENDLY SERVICE MANUALS - TECHNICAL INFORMATION AVAILABLE ONLINE

EFFICIENT AND FAST SPARE PARTS DISPATCH SERVICE

COMPONENTS OPTIMIZATION - FAST SPARE PARTS DELIVERY - HIGHER EFFICIENCY IN WAREHOUSE MANAGEMENT

FLEXIBLE AND MARKET- RESPONSIVE PRODUCTION

With many years of experience, IPC has developed not only a solid and reliable organization, but also an extremely flexible and market-responsive production system. Constant internal research & development ensure specific solutions to satisfy different market needs.

CUSTOMIZED SOLUTIONS

ECO-FRIENDLY SOLUTIONS - SPECIFIC APPLICATION NEEDS - AESTHETIC CUSTOMIZATION REQUESTS

RAPID ASSISTANCE

QUICK AND EFFECTIVE TECHNICAL STUDIES - EFFICIENT PROTOTYPES AND COMPONENT TESTS - ACCURATE TECHNICAL DOCUMENTATION

PRODUCTION FLEXIBILITY

FAST PRODUCTION - CUSTOMIZED TESTS - VERY HIGH PRODUCTION STANDARDS

INDUSTRIALIZED ANSWERS

HIGH QUALITY PRACTICAL DECISIONS - PROFESSIONAL TECHNICAL DOCUMENTATION - SPARE PARTS AS STANDARD PRODUCTS

ECO SELECT

Maintenance Costs

SAVE UP TO 20%

+20%

Eco Select permits to decrease energy consumption and increase running time by 20% in every day cleaning operations. Noise level is down to 62Db allowing cleaning operations even in sensitive areas. Programmed maintenance is longer with consequent cost reduction.

MEMORY CARD

Full control of your machine with service assistance management. The Memory card allows the download the machine's working parameters onto a PC, tablet and mobile device. A dedicated software will easily identify the most important data, such as: battery chargers cycles, brush motor consumption, working hours and error messages.

SERVICE MENU

The system allows the constant management of scheduled maintenance.

AUTOMATIC SCRUBBERS - WALK-BEHIND

i-mop[®] Lite

The i-mop Lite is an extension of the IPC Compact Scrubber line. Its maneuverable and lightweight design weighing only 36 pounds, including the battery brush, and water. The machine can be carried from room-to-room, making it perfect for cleaning restrooms, picking up spills, and cleaning wet and slippery entryways. Its small, compact size allows it to squeeze into many tight spaces, such as aisles or between tables, making it perfect for the retail sector and restaurants as well.

AUTOMATIC SCRUBBERS - WALK-BEHIND

CT15

The CT15 is one of the top selling compact scrubbers on the market. It has a uniquely compact design that allows it to fit in spaces that other scrubbers cannot. It can be used to clean hallways, restroom stalls, entryways, and many other smaller areas without a decrease in maneuverability nor productivity. The CT15 features an adjustable handle that can be tilted down to the operator's height as well as the ability to be pushed down enough to fit easily under lower spaces, such as tables, desks, and chairs.

CT15 LITHIUM-ION

The CT15 with lithium-ion battery offers a compact scrubber with a longer battery run-time. The lithium-ion battery will deliver up to 4 times more life cycle than AGM batteries. With its compact size, 14" cleaning path, and 4-gallon tank, the CT15 effectively cleans in areas where a traditional scrubber is too large.

AUTOMATIC SCRUBBERS - WALK-BEHIND

CT71

The CT71 is the larger scrubber in our CT51/ CT71 premium scrubber series, which features the newest and most innovations and technologies. These machines include an adjustable handle, easy to use dashboard with selector knob, advanced noise control to allow for quieter operations with no distractions, Eco Mode to reduce water being used as well as motor speed reduction. It offers a variety of battery packages that allow for long run-times and high productivity rates that allow you to clean up to 27,000 square feet an hour.

CT105

The CT05 is recommended for medium to large spaces and has been designed to be very easy to use, while keeping electronics to a minimum. The CT105 features a constant flow technology for full control of water flow, a large brush head and an "oversized" opening to the recovery tank for easy clean out. The CT105 is the most reliable, productive and simple machine in its category.

SMARTVAC™ 464

The SmartVac vacuum sweeper is a walk-behind sweeper that has many innovations that give it its "Smart" name, as well as making it the number one selling sweeper on the market. It is extremely productive and can clean carpeted floors 5x faster than a backpack vacuum and 10x faster than an upright. It can be used to clean hard floors as well, with an automatic brush adjustment for moving from hard floors to carpeted surfaces. It requires very minimal maintenance and even has the ability to clean its own filter. The SmartVac has two models - the 464 and 664 with the 464 being the smaller model.

VACUUM SWEEPERS - RIDER

1050

The 1050 sweeper is the perfect step up to higher productivity from walk-behind units. It is small enough to go through a 32" opening but large enough to clean a 42" path with ease. It can clean floors up to 55,000 square feet an hour, all while allowing the operator to sit comfortably in the ergonomic seat.

VACUUM SWEEPERS - RIDER

1280

The 1280 sweeper is a compact and maneuverable ride-on sweeper with a choice of three working programs to make cleaning large surfaces easy and efficient. With a battery life of up to 4 hours, the 1280 can clean up to 190,685 square feet in one charge. On uneven floors, the sweeper's brush can self-adjust to maintain constant pressure and collect all debris in its path. When the debris collection hopper is full, the release is very easy as the sweeper includes a high-dump lift hopper.

AP TUBE
ALUMINUM/
PLASTIC TUBE

LIGHT AND TOUGH

The AP Tube is an innovative solution to simplify the daily cleaning activities. The AP Tube is lightweight and at the same time extremely robust, consisting of an inner layer of aluminum covered with a recycled plastic layer. AP Tube is wear-resistant (Rust-proof), ergonomic and it ensures maximum maneuverability.

SANIFILTER™

CERTIFIED ANTIBACTERIAL TREATMENT

The antibacterial treatment of the filters with silver ions (Ag⁺ ions) destroys bacteria's membrane cell, fungus, viruses, microparasites and inhibits their proliferation.

EXCLUSIVE
BUILT-IN
SEALED
GASKET

MAXIMUM SEAL

The innovative head gasket is melted in the base through a special process that guarantees maximum resistance and durability even when vacuuming oily or chemical residues. Steel tank models include an integrated metal plate to avoid electrostatic discharges.

SCREWING
CONNECTION

EXTREMELY FLEXIBLE

The screwing connection of the flexible hose to the wand provides maximum safety and prevents the uncoupling of the hose.

HI-TECH
LATCHES

VACUUM ALWAYS SEALED

Durable latches are extremely flexible and resistant to any type of torsion thanks to their special blend.

ULTRA PURE WINDOW CLEANING

HYDROCART™ COMPACT

The HydroCart™ Compact is a lighter, more compact version of our IPC HydroCart. It is designed for commercial pure water cleaning applications where it is not typically used daily. Perfect for 1-5 floor buildings such as schools, apartments, hotels, hospitals, clinics, other facilities. A great entry level system for Window Cleaners and BSCs. Available with electric and gas engine Eco-Boost pump modules.

ULTRA PURE WINDOW CLEANING

HYDROCART™ PRO

The HydroCart™ Pro is a powerful and highly effective professional pure water window cleaning system. It is available with electric, battery or gas engine boost pump options (which can be added later) that are designed to increase productivity in low water pressure areas or where multiple pole cleaning is required for extended reach. The HydroCart Pro includes 100 feet of industrial-strength hose that allows mobility and versatility.

ULTRA PURE WINDOW CLEANING

HYDROSTATION™

The HydroStation is a compact and portable pure water cleaning system that produces a high volume of pure water for multiple remote applications. This system includes a 4-stage filtration system which includes reverse osmosis. The deionization process produces mineral free water that results in spot free windows.

Designed to glide on glass with less effort exerted, the speed brush allows you to clean longer, increase productivity and clean faster, all while achieving the same level of great performance. The brush's bristles are specifically engineered to "flare out" to glide on the window and ensure that all corners and edges are cleaned without causing any damage to the window frame. The telescopic poles are constructed of fiber glass, carbon fiber composite and pure carbon fiber. They use flip locks for fast extension and are available in 25', 35' and 45'.

WINDOW CLEANING TOOLS

SQUEEGEES

UNIHANDLE

The innovative Pulex Unihandle is an ergonomic handle, completely versatile and made with high quality materials. Matched with three different accessories, this handle is the answer to each window cleaning need.

BRASS SQUEEGEE

The brass squeegee is a classic tool used by window cleaners. The rubber blade is secured in the channel by two clips at either end, enabling the adjustment of the tension of the rubber blade and keeps it stiff at the ends.

TECHNOLITE SERIES

Technolite combines the classic qualities of easy handling and smooth movement with new features that improve performance in all conditions. The ergonomic grip, made of a uniquely blended material, makes it comfortable for all jobs.

STAINLESS STEEL SQUEEGEE

The stainless steel squeegee can be disassembled into three components: the supporting channel, rubber blade and the handle with a securing spring. The handle is versatile enough to be used as a scraper.

MICROFIBER SLEEVE

The microfiber sleeve by IPC Pulex is made up of a highly efficient blue and white fabric that removed dirt effortlessly with a tiny amount of cleaning fluid.

MICROTIGER SLEEVE

The Microtiger is designed to remove dirt easily using a small amount of detergent (or none at all). The microfibers can penetrate right into the microscopic pores in an apparently flat, compact pane of glass, removing all dirt quickly and easily.

PLASTIC SQUEEGEE

IPC Pulex's top quality plastic squeegee is easy to use and is relatively inexpensive. The plastic squeegee is used by window cleaners globally.

ALUMINUM SQUEEGEE

The aluminum squeegee has been improved and enhanced for window cleaners seeking a lightweight tool that replicates the continuous swirling S-patterns required for cleaning windows smoothly and spot-free.

ALUMAX SQUEEGEE

This extra long squeegee comes with a high-impact, aircraft-grade extruded aluminum alloy channel and a professional swivel handle.

SQUEEGEETECH

This Squeegetech is complete with a 360 degree swivel and is equipped with a microfiber pad that allows for easy application. The squeegetech handle is universal with all telescopic poles.

TOOLS

PULEX PRODUCTS

PLASTIC T-BARS

Pulex Plastic T-Bars come in 5 sizes and have a rigid design to make sure your cleaning sleeves can clean efficiently.

ALUMINUM T-BAR

The Pulex Aluminum T-Bar has an aluminum bar with a durable nylon handle. It is lightweight and easy to use for window cleaning professionals.

SWIVEL T-BAR

The Pulex Swivel T-Bar is made with a rigid aluminum bar with a plastic handle that swivels. This design allows you to scrub windows at any angle.

TUBEX HOLSTER

The Tubex Holster offers a convenient way to keep tools, such as those from IPC Pulex's commercial window cleaning equipment line, handy and easy to access.

BUCKETS

The Window Cleaning Buckets are six gallon plastic/nylon buckets with optional casters, making the buckets easy to transport. Available in 5 colors.

SCRAPERS AND BLADES

IPC's Scrapers and Blades come in various lengths for scraping windows as well as floors.

MUSTIK FLOOR SQUEEGEE

The Mustik Floor Squeegee is made of a heavy duty plastic and comes in three versions: black for general use, red for oils and white for food service.

NIPPER REACHERS

Nipper reachers, part of IPC's Pulex commercial cleaning supplies line, assist in grabbing and disposing of objects without contact.

STICKER RODS

The Sticker Rod, part of IPC Pulex's commercial cleaning supplies line, can pick up rubbish and waste without contact.
